I can activate them very fast and it is just amazing to me that I can do it with such speed and ease. HEU KMS has a one-click activation of its activator and that is a great thing. It is one of the best gun activation products I have used and I recommend it to everyone that wants to try and purchase their first gun or some new guns. HEU KMS is a great gun activator and I will be using it for a very long time.” – Beth Hughes. “I have used HEU KMS Activator for a long time. This is the only KMS activator that actually works and I can honestly say that this is the only gun activation tool that has no noticeable activation delay. The HEU KMS Activator is by far the best KMS tool out there and is, hands down, the best KMS tool available to the general public.” – Devin Kammer. “I have owned HEU-KMS products before and I was very pleased with all of them. But I am most impressed with the performance of the HEU KMS Activator. When I first started looking for a KMS Activator I was told that nothing would activate my guns in the correct manner. Not after trying a bunch of products and not after being turned away from all of the legal dealerships. That is when I stumbled upon HEU KMS and their KMS Activator. Once I tried it out I was amazed at how fast it worked and how quickly I could activate the guns I was shooting. This is the first time I have had success with a gun activation product. I now know the reason why I was so unlucky in the past. I was told that nothing could activate my guns and that no KMS activator could ever work. But thanks to HEU-KMS the dream has come true and I can now shoot my guns all day long. I highly recommend the HEU KMS Activator.” – M.K. “HEU KMS Activator 6.1 is the best KMS Activator that I have ever used. It is the best in terms of ease of use, cost, and performance. The other KMS Activators I have used before 82157476af
